

Idaho Roadless Area Review - Nez Perce National Forest

IRA Name	IRA Acres (Based on 2006 EIS)	IRA Acres (2006 Draft Revision)	Location and Basic Info			Current Rx	Public Comment		County Recommendation and Comment			
			County(s) in IRA and (approx IRA acres per County)	Inholdings (Private, State Land)	Adjacent NF	IRA Roadless Category 1B, 1B-1, or 1C (acres per category)	1987 Nez Perce FP Rx	Comment on Specific IRAs	General Comment on this NF	County #1	County #2	County #3
Clear Creek (#1844)	12,083	9,230	Idaho (12,082)	No	N/A	1C (12,083)	10 - Protect or enhance riparian-dependent resources; 12 - Timber production; 15 - Timber production with deer and elk winter range; 16 - Increase forage for deer and elk on potential winter range; 20 - Manage for old growth habitat for dependent species; 21 - Manage grand fir-Pacific yew communities for moose winter range and other multiple uses	2 org & 22 individuals protect roadless; 3 org & 3 individual support FP and/or amendment to FP. Total comments 5 organizations, 25 individuals.	Nez Perce NF specific comments: Protect roadless Plan or amendment - 4 organizations, 30 individuals. Total comments specific to Nez Perce National Forest 8 organizations, 61 individuals.	Idaho Specific - Borders private land. Small, narrow roadless area. Support active management for timber and other resources and expansion of roads where applicable to further multiple uses. Travel systems can be developed that meet existing NF rules, laws and procedures. Close to population base that uses the area for motorized and non-motorized recreation, particularly during portions of year when higher elevation forest lands are not accessible and available for recreation.	Idaho General - Don't support more wilderness in Idaho County unless unique feature to protect. Support small wilderness designations (or making wilderness smaller) to clean up boundaries, improve management, helps citizens obey law. Support protection of special features outside of wilderness (don't believe this requires special management direction); support use of mechanized equipment outside of wilderness including proposed wilderness; need to address increasing demand for motorized recreation; reintroduce grazing as valid use; support use of helicopters in wilderness areas for census counts.	Idaho (continued general) Support active management including timber harvest, salvage logging, thinning and pre-commercial thinning, prescribed fire, fire use and grazing to help reduce high fuel loads. All roads should be open to use in fight against invasive species. Request process to expedite forest health treatments on written request and need.
Divide Summit - Nut Hill (#1235)	12,224	12,935	Idaho (12,224)	No	N/A	1C (12,224)	10 - Protect or enhance riparian-dependent resources; 12 - Timber production; 17 - Timber production while meeting visual quality objectives of retention or partial retention; 19 - Manage for livestock forage production and other multiple uses; 20 - Manage for old growth habitat for dependent species;	2 org & 20 individuals individual support FP and/or amendment to FP. Total comments 6 organizations, 23 individuals.	Nez Perce NF specific comments: Protect roadless Plan or amendment - 4 organizations, 31 individuals. Support Forest Plan or amendment - 4 organizations, 30 individuals. Total comments specific to Nez Perce National Forest 8 organizations, 61 individuals.	Idaho Specific - Management needs to focus on treating hazardous fuels in this WUI area. General forest management practices appropriate for this area.	Idaho General - Don't support more wilderness in Idaho County unless unique feature to protect. Support small wilderness designations (or making wilderness smaller) to clean up boundaries, improve management, helps citizens obey law. Support protection of special features outside of wilderness (don't believe this requires special management direction); support use of mechanized equipment outside of wilderness including proposed wilderness; need to address increasing demand for motorized recreation; reintroduce grazing as valid use; support use of helicopters in wilderness areas for census counts.	Idaho (continued general) Support active management including timber harvest, salvage logging, thinning and pre-commercial thinning, prescribed fire, fire use and grazing to help reduce high fuel loads. All roads should be open to use in fight against invasive species. Request process to expedite forest health treatments on written request and need.
East Meadow Creek (#1850)	96,656	96,824	Idaho (96,660)	No	N/A	1B (96,656)	10 - Protect or enhance riparian-dependent resources; 11 - Fishery/water quality, wildlife security, dispersed recreation with no new roads; 12 - Timber production; 16 - Increase forage for deer and elk on potential winter range; 17 - Timber production while meeting visual quality objectives of retention or partial retention; 18 - Improve winter range for deer and elk through timber harvest or prescribed burn while meeting visual quality objectives; 19 - Manage for livestock forage production and other multiple uses; 20 - Manage for old growth habitat for dependent species	2 org & 24 individuals individual support FP and/or amendment to FP. Total comments 5 organizations, 33 individuals.	Nez Perce NF specific comments: Protect roadless Plan or amendment - 4 organizations, 31 individuals. Support Forest Plan or amendment - 4 organizations, 30 individuals. Total comments specific to Nez Perce National Forest 8 organizations, 61 individuals.	Idaho Specific - Agree with decisions of Frank Church Center on Energy and Natural Resources. East and West Meadow Creek, Habitat and Jersey Jack roadless areas should be available for timber resources and development under normal multiple-use procedures. Support area as a roadless buffer area for the Selsey Bitterroot Wilderness area. Should be recognized and managed for non-motorized recreation opportunities.	Idaho General - Don't support more wilderness in Idaho County unless unique feature to protect. Support small wilderness designations (or making wilderness smaller) to clean up boundaries, improve management, helps citizens obey law. Support protection of special features outside of wilderness (don't believe this requires special management direction); support use of mechanized equipment outside of wilderness including proposed wilderness; need to address increasing demand for motorized recreation; reintroduce grazing as valid use; support use of helicopters in wilderness areas for census counts.	Idaho (continued general) Support active management including timber harvest, salvage logging, thinning and pre-commercial thinning, prescribed fire, fire use and grazing to help reduce high fuel loads. All roads should be open to use in fight against invasive species. Request process to expedite forest health treatments on written request and need.
Gosspelt Hump (#1921) and Adjacent to Gosspelt Hump (#1923)	52,385 (Note: 2000 EIS includes only main Gosspelt Hump = 45,734)	43,365 in Gosspelt Hump + 2,369 in Adjacent to Gosspelt Hump = 45,734	Idaho (52,387)	Private - 285	N/A	1C (52,385)	10 - Protect or enhance riparian-dependent resources; 12 - Timber production; 13 - Timber production with visual quality objectives; 15 - Timber production with deer and elk winter range; 16 - Increase forage for deer and elk on potential winter range; 17 - Timber production while meeting visual quality objectives of retention or partial retention; 18 - Improve winter range for deer and elk through timber harvest or prescribed burn while meeting visual quality objectives; 19 - Manage for livestock forage production and other multiple uses; 20 - Manage for old growth habitat for dependent species; 21 - Manage grand fir-Pacific yew communities for moose winter range and other multiple uses	2 org & 16 individuals individual support FP and/or amendment to FP. Total comments 5 organizations, 45 individuals. Also rec'd comments on "Adjacent to Gosspelt Hump."	Nez Perce NF specific comments: Protect roadless Plan or amendment - 4 organizations, 30 individuals. Total comments specific to Nez Perce National Forest 8 organizations, 61 individuals.	Idaho Specific - Want opportunities to manage decadent timber stands in area, particularly where it does not inappropriately infringe on wilderness area values or specific endangered species habitat including use of specified and temporary timber roads to achieve these management goals.	Idaho General - Don't support more wilderness in Idaho County unless unique feature to protect. Support small wilderness designations (or making wilderness smaller) to clean up boundaries, improve management, helps citizens obey law. Support protection of special features outside of wilderness (don't believe this requires special management direction); support use of mechanized equipment outside of wilderness including proposed wilderness; need to address increasing demand for motorized recreation; reintroduce grazing as valid use; support use of helicopters in wilderness areas for census counts.	Idaho (continued general) Support active management including timber harvest, salvage logging, thinning and pre-commercial thinning, prescribed fire, fire use and grazing to help reduce high fuel loads. All roads should be open to use in fight against invasive species. Request process to expedite forest health treatments on written request and need.
John Day (#1852)	14,901	10,296	Idaho (14,902)	No	N/A	1C (14,901)	12 - Timber production; 15 - Timber production with deer and elk winter range; 16 - Increase forage for deer and elk on potential winter range; 18 - Improve winter range for deer and elk through timber harvest or prescribed burn while meeting visual quality objectives; 19 - Manage for livestock forage production and other multiple uses; 20 - Manage for old growth habitat for dependent species	2 org & 21 individuals protect roadless; 4 org & 3 individual support FP and/or amendment to FP. Total comments 5 organizations, 24 individuals.	Nez Perce NF specific comments: Protect roadless Plan or amendment - 4 organizations, 31 individuals. Support Forest Plan or amendment - 4 organizations, 30 individuals. Total comments specific to Nez Perce National Forest 8 organizations, 61 individuals.	Idaho Specific - Support active management with extension of existing roads where they meet existing rules, laws and procedures for surrounding areas. Provide opportunities for motorized and non-motorized recreation while protecting private land values.	Idaho General - Don't support more wilderness in Idaho County unless unique feature to protect. Support small wilderness designations (or making wilderness smaller) to clean up boundaries, improve management, helps citizens obey law. Support protection of special features outside of wilderness (don't believe this requires special management direction); support use of mechanized equipment outside of wilderness including proposed wilderness; need to address increasing demand for motorized recreation; reintroduce grazing as valid use; support use of helicopters in wilderness areas for census counts.	Idaho (continued general) Support active management including timber harvest, salvage logging, thinning and pre-commercial thinning, prescribed fire, fire use and grazing to help reduce high fuel loads. All roads should be open to use in fight against invasive species. Request process to expedite forest health treatments on written request and need.
Lick Point (#1227)	7,891	6,876	Idaho (7,891)	No	N/A	1C (7,891)	1 - Resource protection for public safety; 6 - Research Natural Areas; 10 - Protect or enhance riparian-dependent resources; 12 - Timber production; 13 - Timber production with visual quality objectives; 17 - Timber production while meeting visual quality objectives of retention or partial retention; 20 - Manage for old growth habitat for dependent species; 21 - Manage grand fir-Pacific yew communities for moose winter range and other multiple uses	2 org & 22 individuals protect roadless; 3 org & 30 individual support FP and/or amendment to FP. Total comments 5 organizations, 52 individuals.	Nez Perce NF specific comments: Protect roadless Plan or amendment - 4 organizations, 31 individuals. Support Forest Plan or amendment - 4 organizations, 30 individuals. Total comments specific to Nez Perce National Forest 8 organizations, 61 individuals.	Idaho Specific - Small isolated area surrounded by roads. Support historical uses consistent with general forest management prescriptions. Do not see area being a candidate for inclusion in proposed wilderness.	Idaho General - Don't support more wilderness in Idaho County unless unique feature to protect. Support small wilderness designations (or making wilderness smaller) to clean up boundaries, improve management, helps citizens obey law. Support protection of special features outside of wilderness (don't believe this requires special management direction); support use of mechanized equipment outside of wilderness including proposed wilderness; need to address increasing demand for motorized recreation; reintroduce grazing as valid use; support use of helicopters in wilderness areas for census counts.	Idaho (continued general) Support active management including timber harvest, salvage logging, thinning and pre-commercial thinning, prescribed fire, fire use and grazing to help reduce high fuel loads. All roads should be open to use in fight against invasive species. Request process to expedite forest health treatments on written request and need.

Idaho Roadless Area Review - Nez Perce National Forest

IRA Name	IRA Acres (Based on 2006 EIS)	IRA Acres (2006 Draft Revision)	Location and Basic Info			Current Rx		Public Comment		County Recommendation and Comment		
			County(s) in IRA and (approx IRA acres per County)	Inholdings (Private, State Land)	Adjacent NF	IRA Roadless Category 1B, 1B-1, or 1C (acres per category)	1987 Nez Perce FP Rx	Comment on Specific IRAs	General Comment on this NF	County #1	County #2	County #3
Rapid River (#1922)	18,203	20,977	Idaho (Total IRA acres: Idaho 18,187, Adams 13,132)	Private - 132	Peyette NF, (IRA located in Nez Perce, and Peyette NF)	1B (18,203)	1 - Resource protection for public safety; 8.3 - Wild and Scenic Rivers; 10 - Protect or enhance riparian-dependent resources; 11 - Fishery/water quality, wildlife security, dispersed recreation with no new roads; 12 - Timber production; 13 - Timber production with visual quality objectives; 16 - Increase forage for deer and elk on potential winter range; 17 - Timber production while meeting visual quality objectives of retention or partial retention; 19 - Manage for livestock forage production and other multiple uses; 20 - Manage for old growth habitat for dependent species	1 org & 27 individuals protect roadless; 3 org & 3 individual support FP and/or amendment to FP. Total comments 6 organizations, 30 individuals.	Nez Perce NF specific comments: Protect roadless 4 organizations, 31 individuals; support Forest Plan or amendment - 4 organizations, 30 individuals. Total comments specific to Nez Perce National Forest 8 organizations, 61 individuals.	Idaho: Specific - Support maintaining roadless characteristics of this area and amplify non-motorized recreation opportunities and values while still protecting those motorized uses that are currently permitted and occur in this area Support protecting the fish refugia and cultural sites that exist here.	Idaho: General - Don't support more wilderness in Idaho County unless unique feature to protect. Support small wilderness designations (or making wilderness smaller) to clean up boundaries, improve management, helps citizens obey law. Support protection of special features outside of wilderness (don't believe this requires special management direction); support use of mechanized equipment outside of wilderness including proposed wilderness; need to address increasing demand for motorized recreation; reintroduce grazing as valid use; support use of helicopters in wilderness areas for census counts.	Idaho: (continued general) Support active management including timber harvest, salvage logging, thinning and pre- commercial thinning, prescribed fire, fire use and grazing to help reduce high fuel loads. All roads and should be open to use in fight against invasive species. Request process to expedite forest health treatments on written request and need.
Salmon Face (#1855)	9,588	9,165	Idaho (9,588)	No	N/A	1C (9,588)	11 - Fishery/water quality, wildlife security, dispersed recreation with no new roads; 12 - Timber production; 13 - Timber production with visual quality objectives; 15 - Timber production with deer and elk winter range; 16 - Increase forage for deer and elk on potential winter range; 17 - Timber production while meeting visual quality objectives of retention or partial retention; 19 - Manage for livestock forage production and other multiple uses; 20 - Manage for old growth habitat for dependent species	3 org & 22 individuals protect roadless; 3 org & 3 individual support FP and/or amendment to FP. Total comments 6 organizations, 25 individuals.	Nez Perce NF specific comments: Protect roadless 4 organizations, 31 individuals; support Forest Plan or amendment - 4 organizations, 30 individuals. Total comments specific to Nez Perce National Forest 8 organizations, 61 individuals.	Idaho: Specific - Narrow, elongated roadless area located on the hydrological divide between the Salmon River and Snake River and should be managed consistent with multiple use land concepts currently applied on the Salmon River. Lands should be available for timber management while the area immediately adjacent to the Hells Canyon Wilderness area should continue to serve as a Wilderness area buffer. Support protecting motorized recreation in this area while insuring that no motorized incursions into the wilderness are permitted.	Idaho: General - Don't support more wilderness in Idaho County unless unique feature to protect. Support small wilderness designations (or making wilderness smaller) to clean up boundaries, improve management, helps citizens obey law. Support protection of special features outside of wilderness (don't believe this requires special management direction); support use of mechanized equipment outside of wilderness including proposed wilderness; need to address increasing demand for motorized recreation; reintroduce grazing as valid use; support use of helicopters in wilderness areas for census counts.	Idaho: (continued general) Support active management including timber harvest, salvage logging, thinning and pre- commercial thinning, prescribed fire, fire use and grazing to help reduce high fuel loads. All roads and should be open to use in fight against invasive species. Request process to expedite forest health treatments on written request and need.
Silver Creek - Pilot Knob (#1849)	22,324	20,998	Idaho (22,325)	No	N/A	1B (12,463); 1C (9,861)	1 - Resource protection for public safety; 10 - Protect or enhance riparian- dependent resources; 11 - Fishery/water quality, wildlife security, dispersed recreation with no new roads; 12 - Timber production; 15 - Timber production with deer and elk winter range; 16 - Increase forage for deer and elk on potential winter range; 17 - Timber production while meeting visual quality objectives of retention or partial retention; 20 - Manage for old growth habitat for dependent species; 21 - Manage grand fir-Pacific yew communities for moose winter range and other multiple uses	2 org & 22 individuals protect roadless; 3 org & 29 individual support FP and/or amendment to FP. Total comments 5 organizations, 31 individuals.	Nez Perce NF specific comments: Protect roadless 4 organizations, 31 individuals; support Forest Plan or amendment - 4 organizations, 30 individuals. Total comments specific to Nez Perce National Forest 8 organizations, 61 individuals.	Idaho: Specific - Area with specific recommendations concerning cultural interests of the Nez Perce Tribe. None of our recommendations are designed to conflict with the Tribe's cultural concerns and uses. Some may be said for the numerous RNAs within roadless areas. Recommend this area be open for timber management, with the exception that any locations in the Pilot knob area that have cultural significance to the Nez Perce Tribe be reserved and that cultural values will take precedence over access and timber management.	Idaho: General - Don't support more wilderness in Idaho County unless unique feature to protect. Support small wilderness designations (or making wilderness smaller) to clean up boundaries, improve management, helps citizens obey law. Support protection of special features outside of wilderness (don't believe this requires special management direction); support use of mechanized equipment outside of wilderness including proposed wilderness; need to address increasing demand for motorized recreation; reintroduce grazing as valid use; support use of helicopters in wilderness areas for census counts. All roads and should be open to use in fight against invasive species. Request process to expedite forest health treatments on written request and need.
West Meadow Creek (#1845C)	109,012	115,949	Idaho (109,018)	No	N/A	1C (109,012)	1 - Resource protection for public safety; 8.2 - Wild and Scenic Rivers; 10 - Protect or enhance riparian-dependent resources; 11 - Fishery/water quality, wildlife security, dispersed recreation with no new roads; 12 - Timber production; 13 - Timber production with visual quality objectives; 14 - Timber production with deer and elk winter range; 15 - Timber production with deer and elk on potential winter range; 17 - Timber production while meeting visual quality objectives of retention or partial retention; 18 - Improve winter range for deer and elk through timber harvest or prescribed burn while meeting visual quality objectives; 19 - Manage for livestock forage production and other multiple uses; 20 - Manage for old growth habitat for dependent species; 21 - Manage grand fir-Pacific yew communities for moose winter range and other multiple uses	2 org & 23 individuals protect roadless; 3 org & 30 individual support FP and/or amendment to FP. Total comments 5 organizations, 33 individuals.	Nez Perce NF specific comments: Protect roadless 4 organizations, 31 individuals; support Forest Plan or amendment - 4 organizations, 30 individuals. Total comments specific to Nez Perce National Forest 8 organizations, 61 individuals.	Idaho: Specific - Agree with decisions of Frank Church Committee on Energy and Natural Resources. East and West Meadow Creek, Hattard and Jersey Jack roadless areas should be available for timber resources and development under normal multiple-use procedures. Understand that West Meadow Creek is refugia for rare and endangered species support management consistent with maintaining appropriate habitat and species protection. Also support are being available for development and management under normal NEPA parameters. Should be managed under general forest management practices and principles. Meadow Creek encompasses one of the largest threats to the WUI in our County. Want active fuels management in this area to reduce fire threat.	Idaho: General - Don't support more wilderness in Idaho County unless unique feature to protect. Support small wilderness designations (or making wilderness smaller) to clean up boundaries, improve management, helps citizens obey law. Support protection of special features outside of wilderness (don't believe this requires special management direction); support use of mechanized equipment outside of wilderness including proposed wilderness; need to address increasing demand for motorized recreation; reintroduce grazing as valid use; support use of helicopters in wilderness areas for census counts.	Idaho: (continued general) Support active management including timber harvest, salvage logging, thinning and pre- commercial thinning, prescribed fire, fire use and grazing to help reduce high fuel loads. All roads and should be open to use in fight against invasive species. Request process to expedite forest health treatments on written request and need.
